Expense Report Tips

- Expense reports are only needed if a traveler is requesting reimbursement. If the traveler is a student or candidate, the reimbursement is done as a direct pay.
    - Reimbursements are submitted after the trip has taken place.

- All expense reports must have a fully approved pre-approval.
    - Import the pre-approval at the start of creating the expense report if the pre-approval is for a specific event.
    - Do not import blanket pre-approvals. The blanket pre-approval will be attached at the end, when you hit submit on the expense report.

- If expenses were charged on a Pcard, those transactions must be reconciled and signed off on before the expense report is submitted.

- All expenses, including those charged on a Pcard, must be listed on the report.
