FY2019 OPERATING AND CAPITAL BUDGET
EXECUTIVE SUMMARY

FY2019 Budget Overview:

Stockton University is pleased to present its FY2019 Operating and Capital Budget. The FY2019 budget is comprised of:

1. University Operating – This encompasses the largest portion of the operating budget and includes both the Galloway and Atlantic City Campuses. All undergraduate, graduate, and post-graduate activities are included within the University budget.
2. Auxiliary Operating – Includes Housing.
3. Agency Operating – Includes Health and Student Activity.
4. Internal Capital – This comprises capital projects, such as Academic and Housing.
5. Grants Operating – Designated for grant-funded programs that have specific funding sources to cover program expenses.
6. Special Programs Operating – Designated for self-funded programs that have specific funding sources to cover program expenses.

The FY2019 Operating and Capital Budget process was a collaborative effort involving a wide range of stakeholders. The goal of this process was to effectively meet the University community's needs while simultaneously developing an affordable and balanced budget that can be maintained. The University's Strategic Plan provided the foundation throughout the decision-making process.

State Appropriations:

Stockton University will receive nearly \$18.4 million in operating aid in FY2019. The chart below depicts the Direct State Appropriations received over the past five years.

Fiscal Year	Direct State Appropriations Received
FY2015	\$19,839,000
FY2016	\$18,391,000
FY2017	\$18,391,000
FY2018	\$18,391,000
FY2019	\$18,391,000

State-Funded Positions:

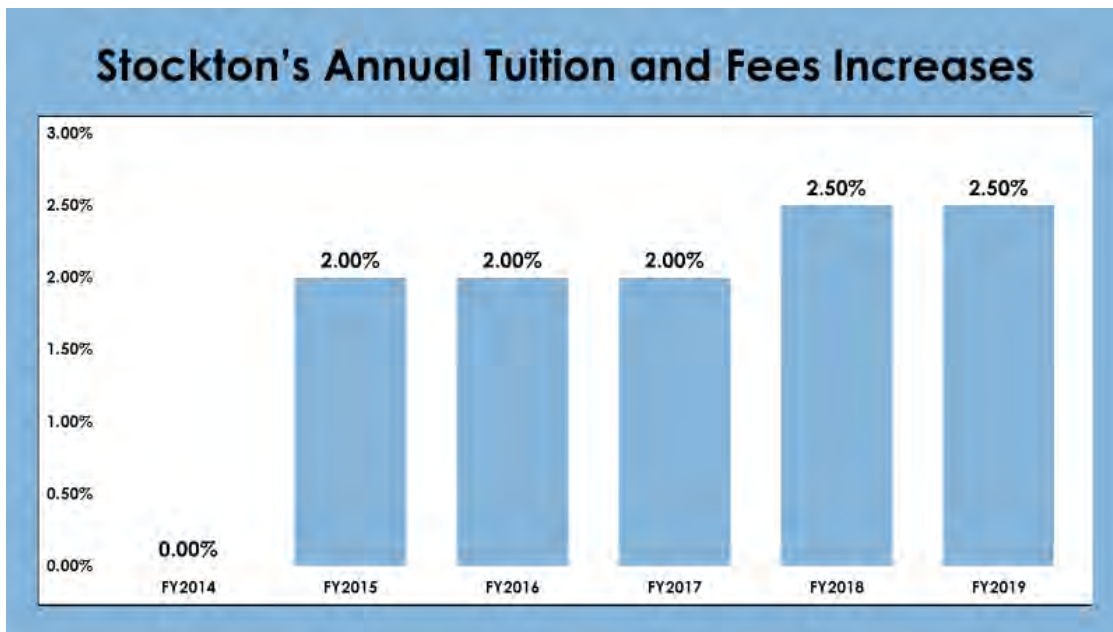

In July 2018, the Legislature restored 305 state-funded positions, bringing Stockton University to a total of 1,069 state-supported positions for FY2019. These positions ensure that students continue to receive the access and services that they deserve. The chart below demonstrates a five-year history of the number of Stockton University’s State-funded positions.

Tuition and Fees Increases:

Stockton University, New Jersey’s “Distinctive Public University,” has remained committed to its mission of excellence in teaching, support of scholarship, and dedication to service. We pursue these goals through an interdisciplinary approach to learning that provides students with a high-quality, diverse educational experience at the baccalaureate, master’s, and doctoral levels.

Our aim is to provide students with an affordable, quality education. To accomplish this, Stockton University has maintained its tuition rates and fees, with minimal increases. For the FY2019 year, Stockton raised its tuition and fees by 2.5%.

Enrollment:

Stockton University’s total enrollment now exceeds 9,000. The new academic buildings will help to maintain the small, personalized class sizes for which Stockton is known, and expand offerings in high-demand science and allied health fields. The FY2019 cost of tuition and fees for undergraduate, full-time students at \$13,738, remains affordable among the four-year public colleges and universities.

Nearly nine of every 10 Stockton students receive financial aid. The University will award students almost \$15 million in institutional funds in FY2019 to help reduce debt after graduation. A dedicated Foundation helps to supplement student costs.

Scholarships:

Stockton University is proud of its student scholarship program. The University awarded over \$13.4 million in FY2018. We anticipate increasing our level of commitment by offering additional scholarships for the Atlantic City Campus in FY2019. Since FY2014, Stockton has increased its scholarship awards by \$5.3 million. We are pleased to have the opportunity to recognize our students for their dedication and successes. The chart below illustrates Stockton University’s commitment to the student scholarship program over the past five fiscal years.

2020 STRATEGIC PLANNING

Overview and Objectives

In keeping with the implementation of our strategic vision, Stockton aligns resources to support our 2020 plan to become “an environmentally-responsible learning community of engaged citizens embracing a global perspective.” From the individual unit goals to the Divisional Program Reviews, our activities and budget allocations are now aligned under four strategic themes, overlaid across four perspectives. Finally, for each of the themes, our Strategic Objectives are detailed below (cross-coded with the four Perspectives and the four Themes). In the Budget Book, we have aligned highlights of strategic requests to these objectives.

Learning: Stockton University is committed to fostering a climate of lifelong learning that challenges and continually transforms all members of the Stockton community. As an institution of higher education, we strive towards a 2020 in which graduates are solidly grounded in the foundations of interdisciplinary understanding; deeply engaged in learning that reflects the ability to move across disciplines as well as between theoretical understanding and the subtleties of implementing knowledge; and, capable of understanding the limits inherent in a single frame of reference, whether it be a disciplinary perspective or a cultural perspective. As a community, we aspire to learning that is intentional and cumulative.

Engagement: Our concept of engagement is broad and includes the intellectual involvement of students with deep learning and the co-curricular, and community activities of students, faculty, staff, and administrators on the campus and in the wider community through active civic work. We aim to create meaningful opportunities for Stockton stakeholders to develop personally by supporting engagement and reflection.

Global Perspectives: We envision laying the foundation of our global theme by building a community capable of developing opportunities to collaborate across a diverse world of cultures, race, gender, orientation and age which prepares us for global participation. We understand that building a global perspective is not limited to travel abroad. We do believe that in this effort, we should strive to capture the wealth of diversity and opportunity which exists locally, regionally, and nationally. Accomplishing this theme is a continuum that we will pursue over time.

Sustainability: Stockton’s theme of sustainability recognizes the need to use, maintain, and enhance resources in a way that safeguards the ability of future generations to use the same resources. Sustainability encourages stewardship of air, water, soil, biological diversity and carbon/associated energy production (and this list is not exhaustive). Institutionally, this theme area means actively managing our own operations with an explicit goal of sustainability. This theme also involves building the capability of our students, faculty, staff and other stakeholders to be stewards of natural resources through education, research/scholarship and service/outreach. Stockton seeks to have a positive impact on the environment locally, regionally, nationally and globally.

Furthermore, the “balance” in a Balanced Scorecard™ overlays our themes across four perspectives:

- **Students, Faculty & Stakeholders:** The highest priorities of the University fall into this top-level perspective.
- **Internal Processes:** The systems, processes, policies and procedures that the University will need to optimize in order to achieve top-level objectives to our Students, Faculty and Stakeholders.
- **Employee Readiness:** The growth and professional development that Stockton staff and faculty will undertake in preparation for changing internal processes and achieving top-level objectives.
- **Resource Stewardship:** The human, facilities and financial resources that the University will align to support Employee Readiness and Internal Processes that enable achievement of top-level objectives to Students, Faculty and Stakeholders.

For each of the Themes, the Steering Committee drafted several Strategic Objectives, detailed below (cross-coded with the four Perspectives and the four Themes). In the Budget Book, we have aligned highlights of strategic requests to these objectives:

**TUITION RATES AND CLINIC FEES FOR PRIVATE APPLIED MUSIC LESSONS IN THE
SCHOOL OF ARTS AND HUMANITIES**

WHEREAS, the College's School of Arts and Humanities has developed a program of private applied music lessons that are required for music majors and will be available to other students; and

WHEREAS, these lessons will primarily be taught by music teachers from the surrounding community who are not currently under contract with the College, with general oversight being provided by regular faculty of the College; and

WHEREAS, payments to Stockton faculty for teaching related activities are terms and conditions that must be negotiated pursuant to New Jersey Employer-Employee Relations Act, N.J.S.A 34:13A-5.3, and

WHEREAS, these lessons will be one lesson every other week for forty-five minutes, for a total of eight lessons per semester; and

WHEREAS, each semester of lessons will be a separate one-credit course; and

WHEREAS, these lessons will entail additional expenses for the College that should largely be borne by the students taking them; therefore be it

RESOLVED, that the Board of Trustees approves a clinic fee of \$400 to be charged per semester for each student taking private applied music lessons; and be it further

RESOLVED, that the following provisions be applied to tuition and academic fee charges for one-credit private applied music lessons:

All students will pay the \$400 clinic fee in addition to their regular tuition and fees.

1. Full time students will pay the regular tuition and fee charges plus the clinic fee.
2. Part-time students on campus will pay the regular tuition and fee charges for one credit plus the clinic fee.
3. Part-time students taking private applied music lessons off-campus will pay an all-inclusive tuition rate of \$100.00 plus the clinic fee.

PRIVATE APPLIED MUSIC GUIDELINES

Private Applied Music is a 1-credit course that all students can take each term (required for music majors) while they are at Stockton. The course is repeatable up to a maximum of eight credits towards degree requirements (three credits within any calendar year). The course will be taught primarily by non-Stockton faculty under the following guidelines:

1. The coordinator of each concentration (Classical Music Studies, Jazz Studies, and Vocal Music Studies) will oversee the logistics for each student. He or she will provide the student with a list of qualified instrumental or vocal music instructors from which the student may choose according to his or her individual abilities. The coordinator may ask the student to audition for placement purposes only.
2. There will be a clinic fee charged to the student of \$400 per 1-credit course. This will be paid to Stockton at the beginning of each semester, in addition to any other tuition and fee charges. The clinic fee compensates the instructor for 8 lessons. The instructor will be paid by Stockton.
3. For any student not on flat-rate tuition there will also be a \$100 per one credit all-inclusive tuition charge. Part-time students whose instruction occurs on campus will pay the usual per-credit tuition and fees for one credit. Full-time students will not pay this charge whether they receive instruction on or off campus, unless they have reached the maximum number of credits allowed per term.
4. There will be one 45-minute lesson every other week for a total of 8 lessons during the term.
5. The student must take a minimum of 8 lessons to earn credit for the course. If a lesson is missed for any reason, the student must arrange a make-up lesson with the instructor.
6. The course will be offered at the 1000 level and will be given POI (permission of instructor). The student will obtain the POI from the appropriate coordinator and may be asked to perform a brief audition, as provided above.
7. At the end of the semester students will perform one or two pieces in a collective, public performance on the Stockton College campus. The Music faculty will determine the student's final grade based on the student's progress toward achieving specific goals as outlined on the course syllabus, and on the instructor's written evaluation.

The fee is used to finance the functions of university-wide organizations, publications, the University Wellness Center, student clubs, social programs, drama and music groups, cultural events, as well as the enhancement of intercollegiate and intramural athletic programs, student club sports, and a variety of recreational activities. The fee also supports salaries, benefits, and non-salary expenses to provide University-wide services.

Description of Speech Pathology and Audiology Clinic Fees

Audiological Evaluation

A \$100.00 fee is charged for an initial assessment of auditory status conducted by a licensed/certified audiologist. Student clinicians will assist in the evaluation. The evaluation may encompass the following: pure tone threshold testing (air conduction and bone conduction), speech discrimination testing, and speech reception threshold. This price allows Stockton to stay competitive with the surrounding markets, but still reflects a significantly reduced cost to the community.

Audiological Follow-Up Evaluation

A \$50.00 fee is charged for a follow-up audiological evaluation after an initial audiological evaluation, as recommended by an audiologist or physician. This would include the screening protocol (air conduction and DPOE) for hearing. If any red flags are discovered at the time of the screening that warrant a full diagnostic evaluation, a full audiological evaluation will be completed at that time at the re-evaluation cost.

Central Auditory Processing Evaluation

A \$350.00 fee is charged for an assessment of central auditory status conducted by a licensed/certified audiologist. Student clinicians will assist in the evaluation. The evaluation involves a battery of tests that may include the following: speech discrimination testing, Staggered Spondaic Words test, Pitch Pattern/Duration test, Phonemic Synthesis test, Filtered Words test, Random Gap Detection test, Dichotic Digits test, and Competing Words test. This will also include a complete audiological evaluation, which alone would cost \$100.00. The price allows Stockton to remain competitive with the surrounding markets (range is \$400 - \$700), while still offering a significantly reduced cost to the community.

Speech/Language Initial Evaluation

A \$120.00 fee will be charged for initial diagnostic testing to assess the status of language development, articulation, fluency, voice, or language impairment conducted by student clinicians under the direct supervision of a licensed/certified speech-language pathologist.

Speech-Language Therapy Registration Fee (per semester)

The Stockton University Speech and Hearing Clinic (the Clinic) does not charge a fee per session, but instead charges a registration fee of \$250.00 per client per semester for enrollment. Once a client is enrolled, this fee will cover (as appropriate) an initial evaluation and any subsequent re-evaluations that may occur during a single semester as recommended by the Clinic. It will also cover all therapy sessions (group or individual) as recommended by the Clinic. If a client only requests an initial speech/language evaluation, the cost will be \$120.00 for that service. If the client subsequently enrolls for therapy services, as recommended by the initial speech/language evaluation, the initial speech/language evaluation fee will be subtracted from the registration fee for the semester.

Support Group Registration Fee

A \$20.00 fee will be charged for clients of the clinic and their significant others to attend a series of group sessions. They will receive support and information on adapting to the diagnosis of a communication disorder.
