Mentimeter
An Interactive Presentation Software

FAVORITE FEATURES

- ❖ Students ask anonymous questions during presentation, which are visible on the slides
- ❖ Students can indicate "Thumbs up" or other reactions on the presentation slides anonymously
- ❖ Visually-appealing presentation of answers to practice questions

WEAKNESSES

- ❖ Personalization of slides is limited; position and size of images is fixed
- ❖ PowerPoint slides are imported as images, so be sure to perfect your slides before importing
- ❖ Slide animations are unavailable
- ❖ Must present through web browser to use Reactions, Comments, and other features on each slide

## Building a Presentation

Option 1:
Embed question slides into Ppt file; present through desktop PowerPoint app
*Glitchy, limited functions

Option 2:
Import Ppt file or build slideshow through Mentimeter; present online at Mentimeter.com

Student feedback
about Mentimeter
through Mentimeter:

Add content slides

Live anonymous engagement and feedback on each slide:
