STOCKTON UNIVERSITY SPEECH & HEARING CLINIC

PURPOSE

The Stockton University Speech & Hearing Clinic provides therapeutic and diagnostic services for children and adults with communication challenges and disorders. The services provided at the clinic are conducted by graduate students who work under the direct supervision of a licensed speech-language pathologist certified by the American Speech-Language-Hearing Association.

Therapy sessions are held for 50 minutes. Individual and group therapy options are available. The clinical objectives addressed in therapy are determined by the results of the speech-language evaluation and are based on individual client need.

"As a parent, you may be experiencing a lot of anxiety trying to figure out what first step you should take to get speech services for your child; I know I was extremely apprehensive about making the right choice. The entire process with the Stockton Speech & Hearing Clinic has been easy and stress free. The rapid and tremendous growth that I have seen with my son has been remarkable. My only regret is that I did not bring him sooner."
