Galloway Township, NJ - The Water Watch student organization at The Richard Stockton College of New Jersey will host the 12th Annual Environmental Forum, **“Climate Change and the Impact on the Earth.”** The forum takes place from 10am until 4pm on Saturday, April 6, 2013 at the Stockton College Campus Center. It is open to students, faculty, staff, and members of the community. Admission is free and attendees will receive complimentary breakfast and lunch, along with other free giveaways.

The purpose of the forum is to educate the community about the environment through two featured speakers, a variety of workshops, and numerous vendors with information and products. The featured speakers, Dr. Erik Cordes, a professor from Temple University and Dr. Keith Dixon, a representative of the National Oceanic and Atmospheric Administration’s Geophysical Fluid Dynamics Laboratory (NOAA/GEDL), will be speaking about climate change and its impact on deep-sea ecology and regional impacts. Child-friendly crafts, face painting, and a caricaturist are available at the event’s vendor fair.

Register for the event by e-mailing your name and contact information to waterwatchrsc@gmail.com. Visitors can park in parking lots 2, 3, and 4, located in front of the Campus Center. The event is open to all ages. Children under 18 must be under adult supervision.
