President Dambroski hopes the semester is off to great start. She wanted to give a few updates from last semester, in regards to Stockton exhibition committee she gave an introduction to the exhibition committee and its purpose. Research has concluded thus far, at the time the university was founded, the board of higher education (which no longer exists) originally asked to be named South Jersey state college. This request was declined, as it was too geographic. After that, the board of trustees picked Richard Stockton. There wasn't much research behind Richard Stockton, and there was a false biography that was popular at the time about him, and they went with it. President Dambroski said the situation is really stinky now as we realize the type of person he was. President Dambroski was hoping to get together soon to make a plan about the future of the bust. The committee has been looking into types of statues to ironically reflect the situation. New signs in the library have been added, but the bust is still removed. The administration has sent list of actions on resolution passed last semester. President Dambroski explained the letter is lengthy, and will go over it with senators. She mentioned that students can expect a report from student senate on the administration's actions on the resolution. She encouraged everyone to get involved with unite against hate day on February 6th, hoping for an event of unity.

The Governmental Affairs Committee hosted a “Hi From The Other Side event” on Monday February 12 in the campus center coffee house at 4pm. The event’s turnout was underwhelming, but we are learning from our mistakes and we hope to host a similar event in the future with better results. We are also hoping to host “Hot Topic” political debates throughout the semester. We are planning to have students Anthony Farfalla and Thomas Urbanik debate the 2nd amendment and gun control policy.

We have set a date for a lobbying trip to the state capital as Thursday April 5. We plan to leave early in the morning and arrive in Trenton at 9 am and leave by noon to be back at 1:30 p.m. We are also looking to host a primary town-hall for the congressional district two race coming in 2018.

The Governmental Affairs Committee has undergone constitutional revisions and is bringing this consent agenda to the floor for passage:

The reason for all of these constitutional changes are to clean up the constitution a bit, as well as make it more relevant to our actual functioning.

Article II “Organization”

This change reflects the Senate’s practice over the past few years of appointing a “Chief of Staff” to do the work of maintaining meeting minutes.

Article IV “Duties, Powers, and Responsibilities”

These changes reflect the reality that these responsibilities or rules do not accurately describe our operational structure. The Class Councils no longer exist. There is extra wording describing specific programs that is unneeded.

New- Section I Part E: An alternate shall fill out the term of their predecessor.

We presented the changes to the governing body last Tuesday. The Governmental Affairs Committee, along with Chief of Staff Anthony Farfalla, are happy that the formatting of the constitution will be fixed and more professional. The next step is to make the constitution much shorter and put certain things in the bylaws. Shrinking our constitution will make it much easier for all senators to follow and understand.

The committee is also in the early process of planning a trip to the state capitol to meet with legislators. We are hoping to reach out to other student leaders in clubs to lobby on issues relevant to their field.

Student Affairs

Chairperson Ritter has no attendance to report.

Agenda:

The Student Affairs Committee has been busy this month and looks forward to continuing the progress. Senator Franklin has been attending the Sexual Assault Awareness month planning meetings and encourages students to sign up to become an Osprey Advocate. To do that, the training is during spring break from March 12-16 in F 118 and they will help the women's, gender, and sexuality center on helping victims in any way they want, including answering the 24/7 hour hotline. Senator Couburn has a meeting set up with facilities to talk about the lighting on dark path and louisville. We look forward to hearing a report back. I have been working with Craig Stambaugh on creating the trail map for Stockton. Our next steps are to ensure that all the trails are in good condition and that there are a lot of students interested. Senator Franklin and I have been working with Director of SASI, Jim Rotler, on the shuttle feedback service. I just met with him last week and he showed me a sample of the survey that is going to be powered through qualtrics. Each shuttle is now going to be numbered and to fill out the survey there will be a website that will take you directly to the link. We hope to have this up and running by next month. Some ideas that we are thinking about looking in to are getting more services for non traditional students. We look forward to continuing our efforts and welcome any feedback or recommendations for the future.
